I am one of the Washington Quarter Midget Assoc: members, and I am in charge of purchasing F-500 refill kits. Last weekend we had one of the quarter midgets catch on fire (the fuel line came in contact with the exhaust system, melted a hole thru it and a HUGE FIRE resulted. Your product put the fire out and cooled the heat transfer going to the driver) we need to order seven refill kits. We used two extinguishers, but want spare kits on the shelf. Please call me. I don't see a way to order on line. (Did I miss something?)

Mike Root

P.S. The driver only received two small minor burns, his race car was up and running in less than an hour.

Thanks again for a great product!!
